

## Network License Activation

- 1.) The user will want to copy and paste a total of 19 files show below from a previous Install and copy them into your UNC path where you have made a folder with no spaces for ease of use. The example below is <\\TV-NET-01\Public\PowerSuite-License>. The files are also listed below the folder image.

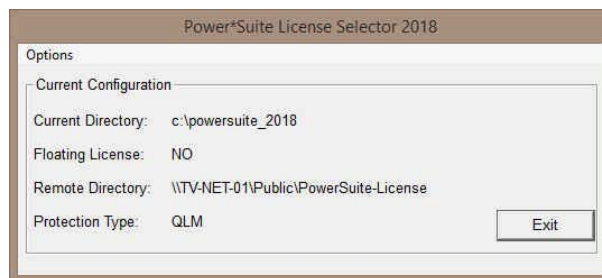

- DevExpress.Data.v18.2.dll
- DevExpress.Utils.v18.2.dll
- DevExpress.XtraBars.v18.2.dll
- DevExpress.XtraEditors.v18.2.dll
- DevExpress.XtraGrid.v18.2.dll
- DevExpress.XtraLayout.v18.2.dll
- LICENSE.INI
- pgeology.lic
- PowerSuite 20.0.lw.xml
- QImFloatingLicenseViewer.exe
- QImFloatingLicenseViewer.exe.config
- QImFloatingLicenseViewer\_Current\_Dir.bat
- QImLicenseLib.dll.manifest
- QImLicenseWizard.exe
- qlmPowerSuiteFloating.xml
- qlmPowerSuiteFloating.xml.bak
- QLMTRIALKEY.INI
- select.exe

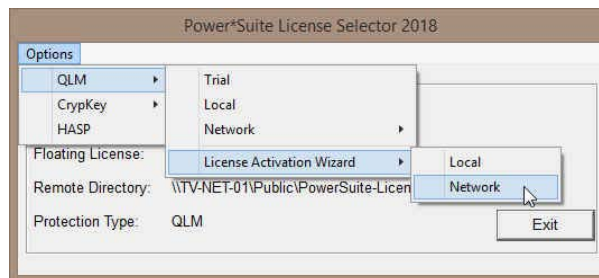

- 2.) Once those files are copied over the user can then run our **License Selector** application (<\\TV-NET-01\Public\PowerSuite-License>\select.exe) which can be found in your Windows Explorer. This will activate the License Selector shown on the next page.

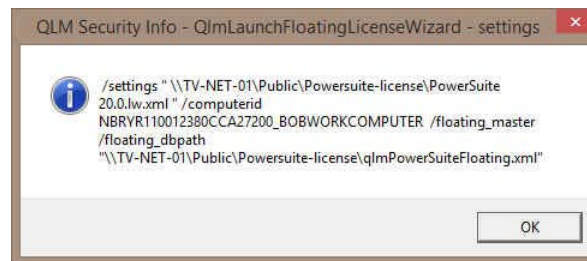

- 3.) Click on the **Options** pull down menu and **Select Network**, then **Select UNC Path** as shown above. This will activate the UNC Path Window shown below on the left. **Type** in the **UNC path** to the license folder you created on the Mapped Network drive. In this case it was [\\TV-NET-01-Public\PowerSuite-License](#). Now Click on the **OK** Button

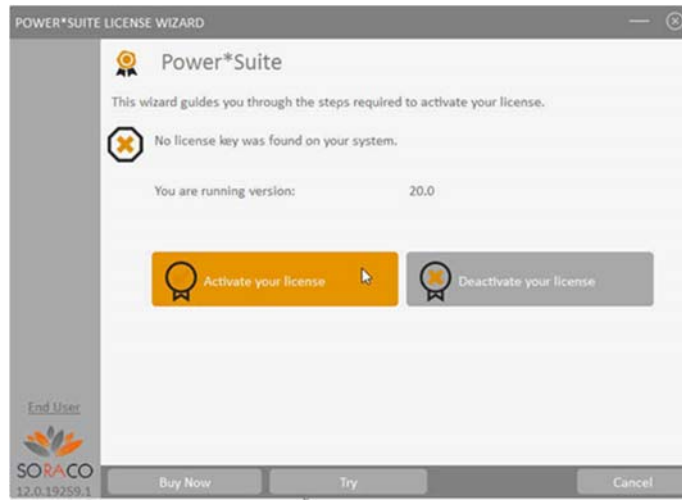

- 4.) Then Click on the **Options** pull down menu and **Select QLM**, then **Select License Activation Wizard** and then **Select Network** as shown below.

- 5.) This will activate a QLM Security Info window and click on the **OK** button.

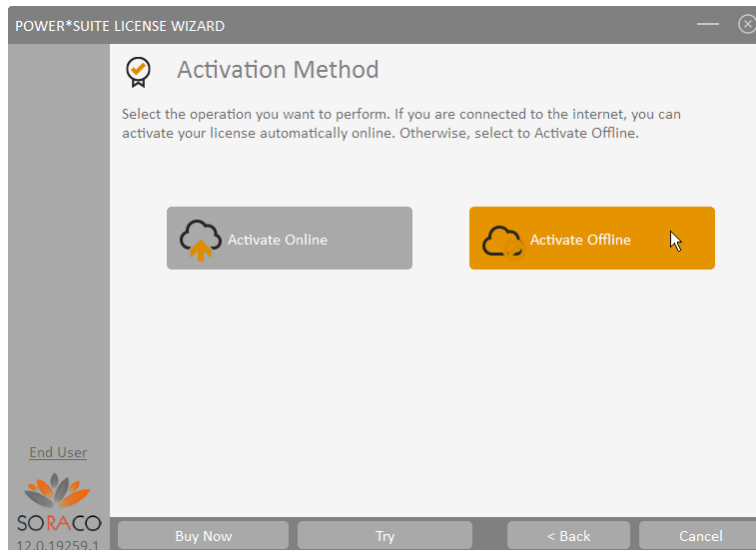

6.) This will activate the Power\*Suite License Wizard. **Click on the  button.**

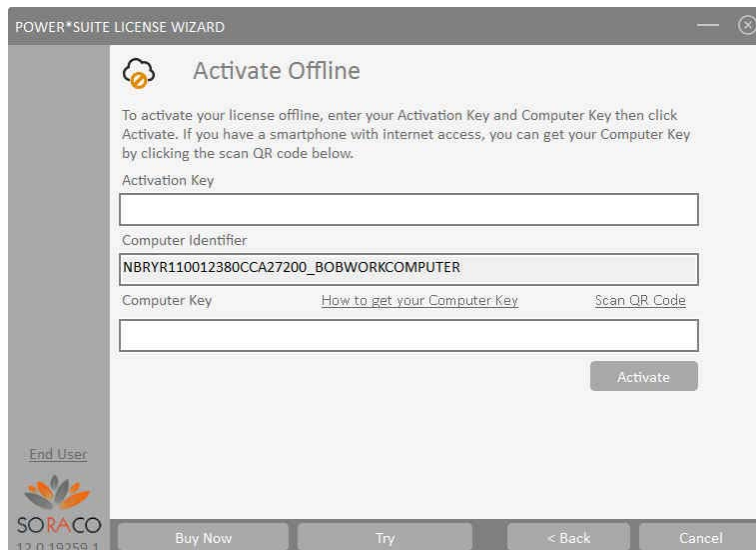

7.) This will activate the Floating License Registration window shown below with your UNC Network path to your License folder. Then **click on the  button.** If done correctly you will view a message indicating **“You have successfully registered the Floating License.”**

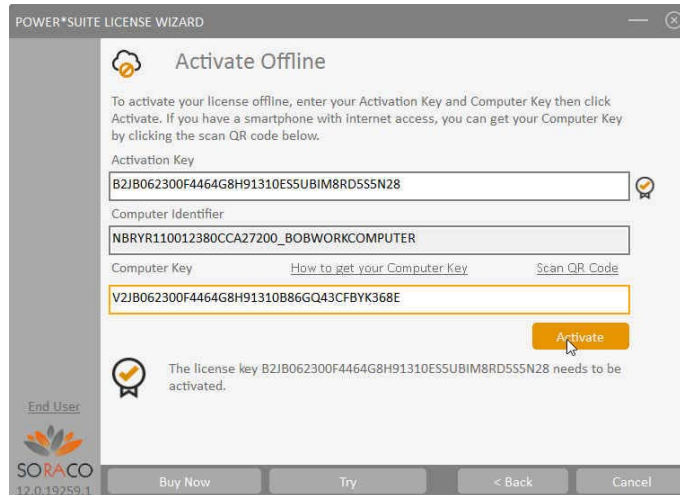

- 8.) Click on the  button. This will activate the options to Activate Method Window as shown below. Click on the  Button

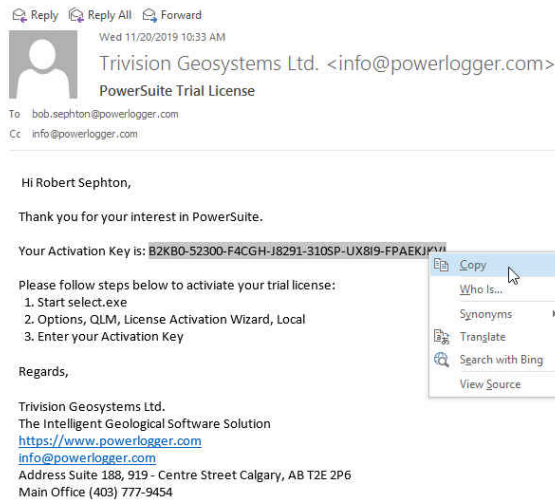

- 9.) This will activate the **Activate Offline** message box with empty Activation Key Field and Computer.

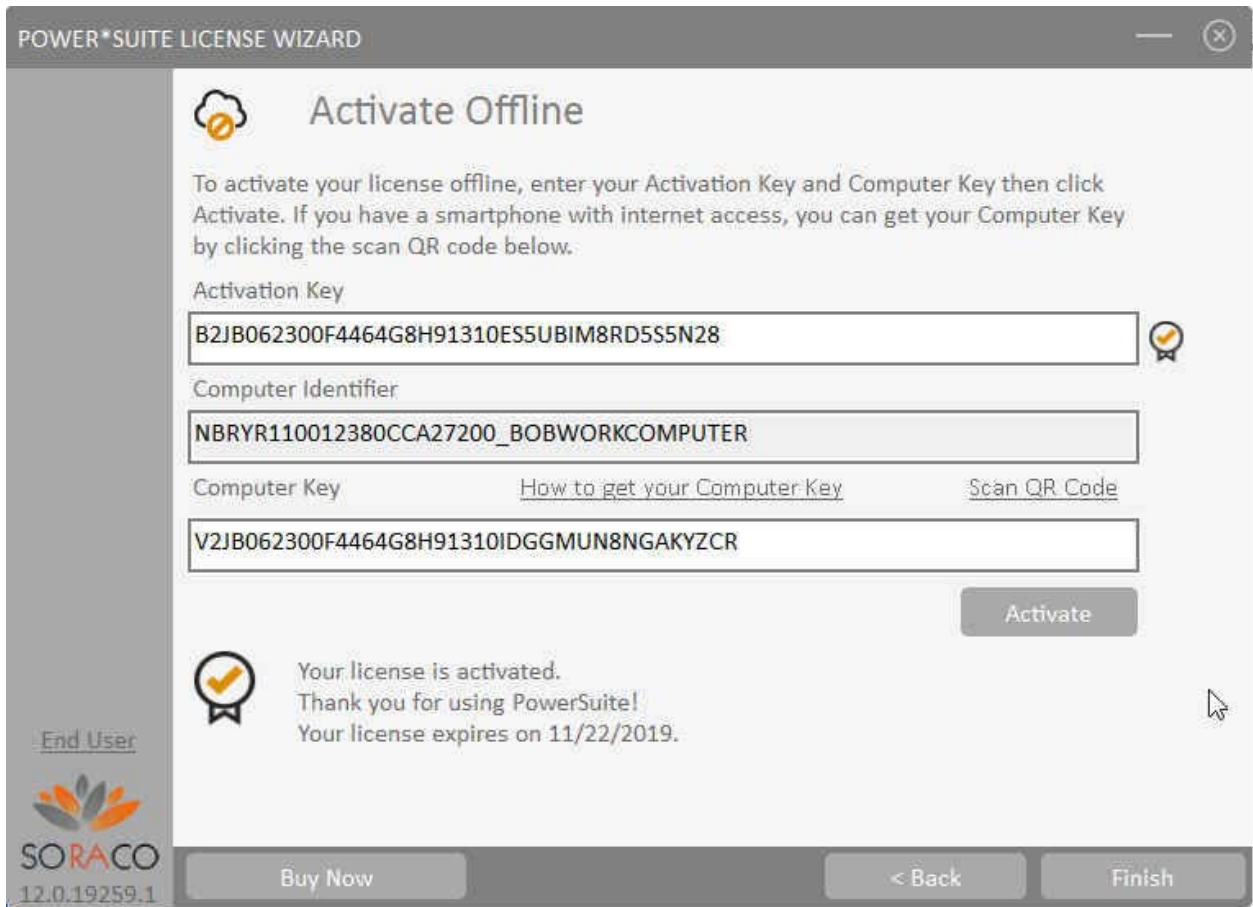

- 10.)
- 11.) You will now have to contact Trivision Geosystems to get the Activation and Computer Keys. You can contact us by email at [info@powerlogger.com](mailto:info@powerlogger.com) or call at 1-403-777-9454.

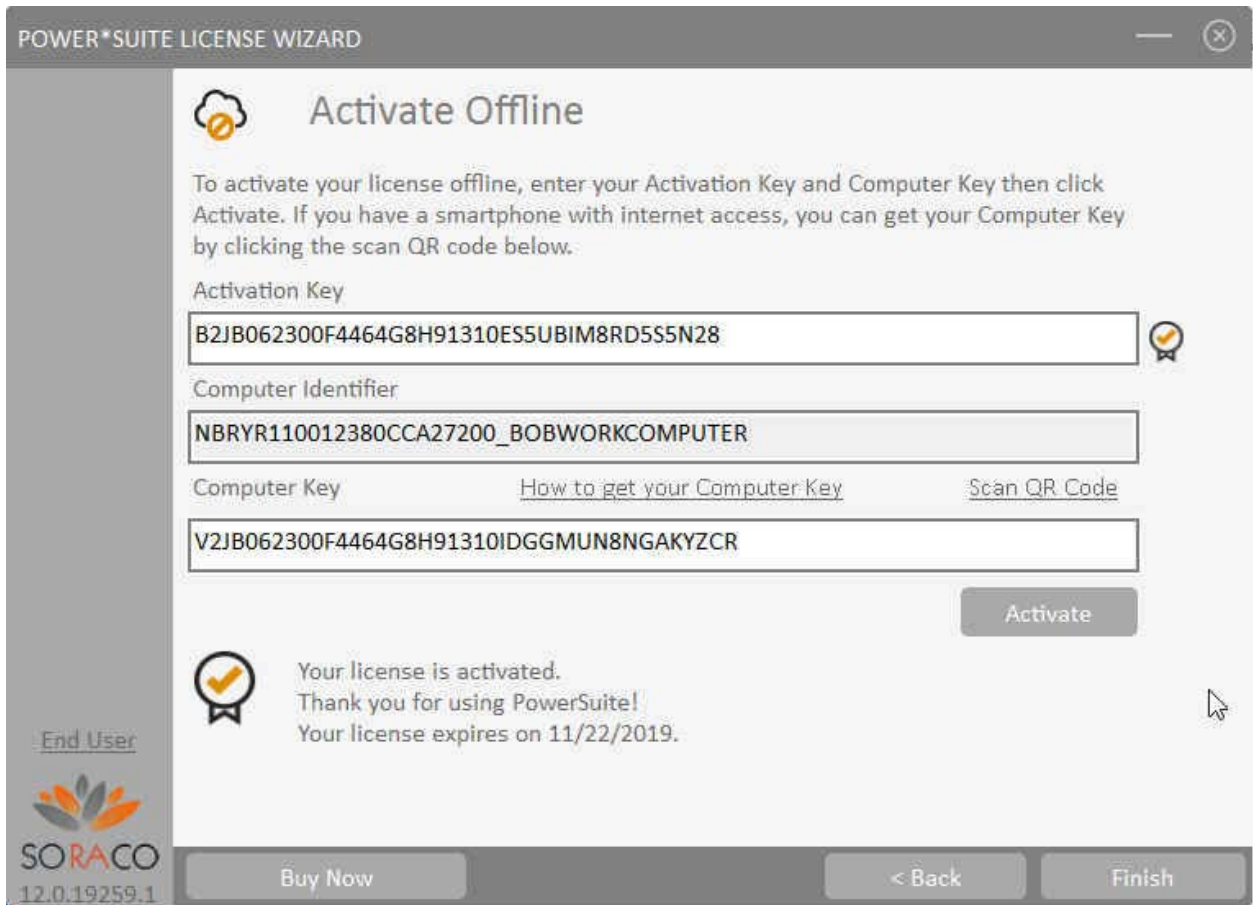

12.) Check your emails. You should receive an email from Trivision Geosystems Ltd. This email should be sent within minutes. An example of our email is shown on the next page and you can then **write down or copy and paste the Activation Key and Computer Key into the appropriate fields.**

- 13.) **Click** on the **Activate** button as shown above. This will activate a message within this dialogue indicating you have successfully initiated you trial license and the expiry date as shown below.

14.) Click on the **Finish** button.

15.) Double click on the **Power\*Log** (Vertical Application), **Power\*Curve** (Horizontal Application), **Power\*Core** (Core Application) or **Power\*Steer** (Steering Application) Desktop Icons to start using our Power\*Suite applications.
